

Chattooga County has a moderate risk profile. Pfos exceeds recommended limits in approximately 57% of tested wells, driven by industrial sources. Contamination is often invisible — testing is the only way to confirm your well's safety.

YOUR TOP WATER QUALITY RISKS

CONTAMINANT	HOW COMMON	RISK LEVEL	SOURCE & CONTEXT
PFOS	~57% above limit	High	Industrial — Firefighting foam and industrial discharge
Manganese*	~43% above aesthetic limit	Moderate	Geological — Found in reducing aquifer zones alongside iron
PFOA	~36% above limit	High	Industrial — Firefighting foam and industrial manufacturing discharge
Iron*	~14% above aesthetic limit	Moderate	Geological — Common in glacial and alluvial aquifers; staining and taste
Lead	~20% of wells	Low	Infrastructure — Older well casing materials and household plumbing

* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

WHAT TO DO NEXT

- Order a water test.**
Test for PFOS, Manganese, PFOA, Iron, coliform bacteria. Bacteria annually; others every 3–5 years.
- Get your free county report.**
See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/ga/chattooga-county/>
- Upload your lab results.**
We'll interpret them, flag anything above limits, and recommend next steps — free.

WHAT YOUR RESULTS MEAN

Use this to interpret your lab report — match the contaminant to your result.

IF YOUR TEST SHOWS	WHAT IT MEANS	CONSIDER
Bacteria detected	Immediate concern	Shock chlorination; add UV system
PFOS detected	Health advisory level	Reverse osmosis filter
Manganese > 0.05 mg/L	Aesthetic + health concern at high levels	Oxidation + filtration system
PFOA detected	Health advisory level	Reverse osmosis filter
Iron > 0.3 mg/L	Staining, taste — aesthetic issue	Oxidizing iron filter
Lead > 15 µg/L	EPA action level exceeded	RO filter; inspect well casing

WHO SHOULD USE THIS

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
