

Jackson County has a moderate risk profile. Pfoa exceeds recommended limits in approximately 3% of tested wells, driven by industrial sources. Contamination is often invisible — testing is the only way to confirm your well's safety.

PRIVATE WELLS**Varies**PRIMARY
AQUIFER TYPE**MODERATE**OVERALL
RISK LEVEL**YOUR TOP WATER QUALITY RISKS**

CONTAMINANT	HOW COMMON	RISK LEVEL	SOURCE & CONTEXT
PFOA	~3% above limit	Low-Moderate	Industrial — Firefighting foam and industrial manufacturing discharge
PFOS	~3% above limit	Low-Moderate	Industrial — Firefighting foam and industrial discharge
Fluoride	~100% of wells	Low-Moderate	Geological — Naturally elevated in some deep or volcanic aquifers
Arsenic	~100% of wells	Low-Moderate	Geological — Naturally dissolves from bedrock and glacial sediment
Chloride*	~100% of wells	Low-Moderate	Road/Geological — Road salt application and natural mineral deposits

* Secondary standard — an aesthetic limit for taste, odor, or staining. Not a health-based EPA limit.

WHAT TO DO NEXT

- Order a water test.**
Test for PFOA, PFOS, Fluoride, Arsenic, coliform bacteria. Bacteria annually; others every 3–5 years.
- Get your free county report.**
See full data, treatment options, and certified labs at <https://yourwaterreport.com/states/ga/jackson-county/>
- Upload your lab results.**
We'll interpret them, flag anything above limits, and recommend next steps — free.

KNOW YOUR WELL

Well age / year drilled

Last water test date

WHAT YOUR RESULTS MEAN

Use this to interpret your lab report — match the contaminant to your result.

IF YOUR TEST SHOWS	WHAT IT MEANS	CONSIDER
Bacteria detected	Immediate concern	Shock chlorination; add UV system
PFOA detected	Health advisory level	Reverse osmosis filter
PFOS detected	Health advisory level	Reverse osmosis filter
Fluoride > 4 mg/L	EPA limit exceeded — skeletal risk	RO filter or activated alumina
Arsenic > 10 µg/L	EPA limit exceeded — chronic cancer risk	Reverse osmosis or activated alumina filter

WHO SHOULD USE THIS

- Homeowners on private wells — not covered by public water testing
- Home buyers doing due diligence before closing
- Families with infants, elderly, or immunocompromised members
- Anyone who hasn't tested their well in the past 3 years
